# Curriculum Handbook for Parents

**2011–2012**

This Curriculum Handbook provides parents with information about the Grade 2 curriculum. It includes:

- selected learning outcomes for each subject area from the provincial curriculum
- links to the Alberta Education website where more information can be found
- a questionnaire.

**Note:** In an effort to enhance communication with parents, Alberta Education will be replacing this print document with a new, online, digital parent resource with a printable component. You may access this new parent resource by visiting the Alberta Education website at <http://education.alberta.ca/parents.aspx>.

# Alberta Education

This document, along with most Alberta Education documents, can be found on the website at <http://education.alberta.ca>.

Parent documents referenced in this handbook, along with most Alberta Education documents, are available for purchase from:

Learning Resources Centre  
12360 – 142 Street  
Edmonton, Alberta, Canada, T5L 4X9

## *Message from the* **Minister of Education**

The government of Alberta is committed to providing quality educational opportunities for all students in our province, with the success of each student being the highest priority. Our children and youth must come first – every day – without exception.

This bright future is possible, but it requires all of us to take bold steps as we rethink our notions about what education means in the 21<sup>st</sup> century.

Through our various public engagement initiatives, Albertans from all walks of life are engaged in formal and informal conversations about how we can continue to build a strong education system in this province. In speaking with parents and parent groups, I have also heard that we must be prepared to think through how we maximize our resources in education and transform what we do, so we can support students in all aspects of their learning.

Part of this change involves how we communicate to parents and, in particular, how we communicate about what their child is expected to learn at each stage of his or her educational journey. To respond to this need, we are developing a new online resource for parents that will expand our reach into schools and communities across Alberta.

We will transition from the present *Curriculum Handbook for Parents* to an enhanced digital resource in 2012. *Grade-at-a-Glance* will still be available to parents and others in a printed format.

It is my belief that students benefit when parents actively engage in their children's learning because together, both have a solid understanding of the tasks, challenges and rewards offered through our program of studies. You play an integral role in your child's education by providing the encouragement and support he or she needs to succeed.

This curriculum overview is a valuable resource that will answer many questions you may have about what your child is learning. I also hope this resource will help contribute to opportunities for open dialogue between you, your child and your child's teacher regarding curriculum outcomes and expectations.

!Qtki kpcn'Uki pgf\_

Dave Hancock, Q.C.  
Minister

## ▶ Introduction

Website links for further information are provided throughout the handbook.

Students learn in a variety of environments—in their homes, schools and communities. Parents, teachers and community members form a partnership to assist this learning.

When parents know what children are studying at school, they can provide better home support for their children’s learning. The *Curriculum Handbooks for Parents* are designed to assist parents in participating in their child’s education by fostering an understanding of what students learn at each grade level.

### Finding Information

Parents can find information about the curriculum and learning resources in a number of ways:

- Contact teachers or school administrators.
- **Curriculum Handbooks** contain selected outcomes for each subject area from the Alberta programs of study. They provide a more detailed picture of each year. This Curriculum Handbook is one of a set from Kindergarten to senior high school produced in general and Catholic versions and in French. They are available on the Alberta Education website or for purchase from the Learning Resources Centre (LRC).
- **Curriculum Summaries** for each grade level provide a brief overview of each year. The summaries are available on the Alberta Education website.
- **Curriculum Express** for Kindergarten to Grade 3 is a series of handbooks, developed to provide a short explanation of the curriculum for parents who are English language learners.

<http://education.alberta.ca/parents/resources/handbook.aspx>

<http://education.alberta.ca/parents/resources/summaries.aspx>

<http://education.alberta.ca/parents/resources/express.aspx>

<http://education.alberta.ca/teachers/program.aspx>

<http://education.alberta.ca/apps/lrdb>

<http://education.alberta.ca>

- In Alberta, the provincial curriculum is organized into **Programs of Study**. They contain learning outcomes for each subject area from Kindergarten to Grade 12. They are legal documents that outline why the educational program is offered, what students are expected to learn and the basic principles about how students are to achieve the required knowledge, skills and attitudes. School authorities use the **Programs of Study** to ensure that students meet provincial standards of achievement. However, they have flexibility to decide how to teach the curriculum and the order in which it is taught. They are available on the Alberta Education website or for purchase from the Learning Resources Centre (LRC).
- The Authorized Resources Database on the Alberta Education website lists **Alberta authorized student and teacher resources**, most of which are available for purchase from the LRC.
- The **Alberta Education website** contains information on learning from the early years to adulthood.

## Helping Your Child at Home

Here are some important pointers for you to help your child learn.

- Be positive and encouraging in your approach to learning. It will help your child feel confident and enthusiastic about success.
- Talk to your child about schoolwork and help with homework when you can.
- Help your child set realistic goals and discuss progress in an encouraging way.
- Connect your child's schoolwork with everyday life and use these opportunities for problem solving in everyday situations.
- Keep in touch with teachers about your child's progress, including successes and achievements, not just concerns.

The following resources may help you. Check your child's school for availability.

This resource is available for purchase from the Learning Resources Centre (LRC). Order online at <http://lrc.education.gov.ab.ca/pro/default.html>

- *The Parent Advantage: Helping Children Become More Successful Learners at Home and School, Grades 1–9*—Strategies parents can use to help their child improve organizational, reading, writing, spelling, mathematical, test taking and project skills at the grades 1–9 levels.

<http://learnalberta.ca>

<http://www.2learn.ca>

- *LearnAlberta.ca* website—Online multimedia learning resources that directly relate to the Alberta programs of study.
- *TELUS 2Learn* website—An education/business partnership that provides Internet in-service, support and information for Alberta teachers, students and parents.

### **Information Regarding the *Alberta Human Rights Act***

On September 1, 2010, section 11.1 of the *Alberta Human Rights Act* comes into force. This section requires boards (including charter schools) to provide parents with notice where “courses of study, educational programs or instructional materials, or instruction or exercises ... include subject matter that deals primarily and explicitly with religion, human sexuality or sexual orientation.” Where a parent makes a written request, teachers shall exempt the student, without academic penalty, from such instruction, course of study, educational program or use of instructional material. These requirements do not apply to incidental or indirect references to religion, religious themes, human sexuality or sexual orientation. For more information, refer to the [Guide to Education: ECS to Grade 12](#).

In Grade 2, students study required subject areas. Optional subject areas may be available at the local school. Students have access to a minimum of 950 hours of instruction each school year.

## Overview

The Grade 2 Alberta program of studies for each subject area sets out general outcomes or topics that provide an overview of the important learnings students accomplish. Specific outcomes are included for each general outcome or topic and state in detail the knowledge, skills and attitudes students are working towards achieving.

View the programs of study at <http://education.alberta.ca/teachers/program.aspx>

Purchase programs of study from the Learning Resources Centre (LRC).  
Order online at <http://lrc.education.gov.ab.ca/pro/default.html>

This handbook contains:

- the general outcomes or topics for each subject area
- selected specific outcomes for most subject areas.

The programs of study, which include all the general and specific outcomes, are available on the Alberta Education website or for purchase from the Learning Resources Centre (LRC).

## GRADE 2: [REQUIRED SUBJECT AREAS]

## GRADE 2: [OPTIONAL SUBJECT AREAS]

\* Students in bilingual programs take English language arts as well as language arts in the target language. Students in French immersion programs may take English language arts. English language arts for these students is mandatory in Grade 3.

## ▶ Information and Communication Technology (ICT)

---

View the information and communication technology subject page at <http://education.alberta.ca/teachers/program/ict.aspx>

ICT is learned most effectively in the context of subject areas, therefore, the ICT curriculum is best infused within the teaching of other programs of study such as language arts, mathematics, science and social studies. Through ICT, students learn how to use and apply a variety of information and communication technologies; the nature of technology and the importance of technology in daily life.

**ICT learning outcomes have been established for each division. The following is a sample of the Division 1 learning outcomes that students are expected to meet by the end of Grade 3.**

### **Communicating, Inquiring, Decision Making and Problem Solving**

- access and retrieve appropriate information from electronic sources for a specific inquiry
- process information from more than one source to retell what has been discovered

### **Foundational Operations, Knowledge and Concepts**

- identify technologies used in everyday life
- demonstrate courtesy and follow classroom procedures when making appropriate use of technology

### **Processes for Productivity**

- create original text, using word processing software, to communicate and demonstrate understanding of forms and techniques
- edit complete sentences, using such features of word processing as cut, copy and paste

## ▶ First Nations, Métis and Inuit Education

---

<http://education.alberta.ca/teachers/fnmi.aspx>

<http://education.alberta.ca/teachers/fnmi/policies.aspx>

First Nations, Métis and Inuit peoples throughout the province have indicated they want their children to complete regular school requirements and achieve the same standards as set for all students in Alberta. Alberta Education shares this goal with parents. The First Nations, Métis and Inuit (FNMI) Education Policy Framework (2002) provides further information.

To support the learning of First Nations, Métis and Inuit students, schools are encouraged to use learning resources that include First Nations, Métis and Inuit perspectives. All students in Alberta need to understand and be aware of First Nations, Métis and Inuit history, culture, lifestyles and heritage. First Nations, Métis and Inuit (FNMI) perspectives are infused into the existing Kindergarten to Grade 12 programs of study. Student and teacher resources have been developed by Alberta Education to support the inclusion of FNMI content in teaching and learning.

Both provincially and locally authorized Blackfoot and Cree language and culture courses are offered in the province.

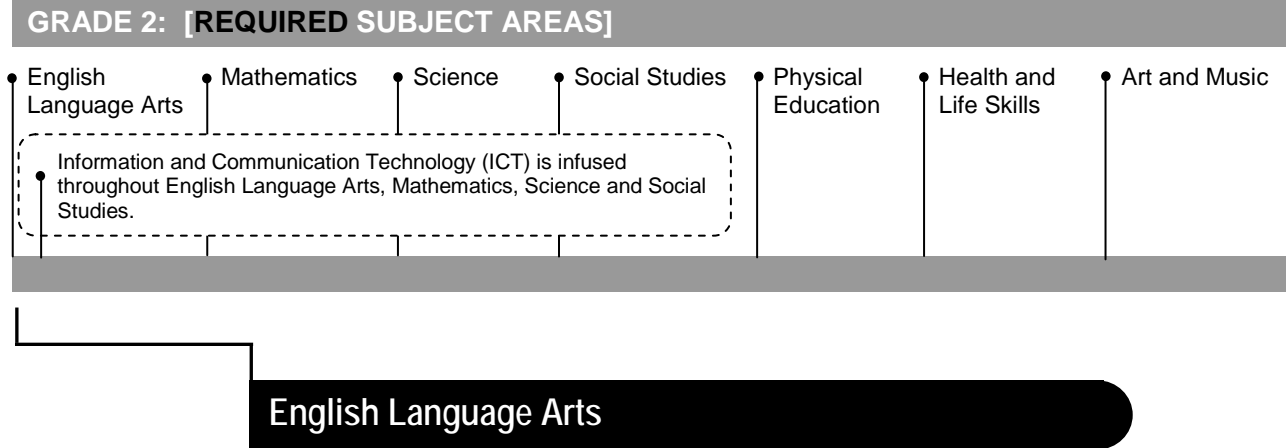

## ▶ English Language Learners

---

<http://education.alberta.ca/teachers/program/esl.aspx>

Many children born in Canada have a first language other than English and many students move here from countries where English is not the primary language. These English language learners require English as a second language (ESL) programming and supports to achieve grade level expectations in all subject areas.

▼ The **required subject areas** are the foundation of the elementary program.

View the English language arts subject page at <http://education.alberta.ca/teachers/program/english.aspx>

There are two basic aims of English language arts. One aim is to encourage, in students, an understanding and appreciation of the significance and artistry of literature. A second aim is to enable each student to understand and appreciate language and to use it confidently and competently for a variety of purposes, with diverse audiences and in a range of situations for communication, personal satisfaction and learning.

From Kindergarten to Grade 12, students are developing knowledge, skills and attitudes in six language arts: Listening and Speaking; Reading and Writing; Viewing and Representing. Students learn to compose, comprehend and respond to oral, print and other media texts. They experience a variety of texts from many cultural traditions.

**The following learning outcomes are selected from the Grade 2 English Language Arts Program of Studies.**

### **Explore thoughts, ideas, feelings and experiences**

- contribute relevant ideas and information from personal experiences to group language activities
- recognize and talk about developing abilities as readers, writers and illustrators listen and respond appropriately to experiences and feelings shared by others
- connect own ideas and experiences with those shared by others
- record ideas and information in ways that make sense

**Comprehend and respond personally and critically to oral, print and other media texts**

- use knowledge of the organizational structures of print and stories, such as book covers, titles, pictures and typical beginnings, to construct and confirm meaning
- figure out, predict and monitor the meaning of unfamiliar words to make sense of reading, using cues such as pictures, context, phonics, grammatical awareness and background knowledge
- apply phonic rules and generalizations to read unfamiliar words in context
- use knowledge of word parts, contractions and compound words to read unfamiliar words in context
- identify main characters, places and events in a variety of oral, print and other media texts
- create narratives that have beginnings, middles and ends; settings; and main characters that perform actions

**Manage ideas and information**

- relate personal knowledge to ideas and information in oral, print and other media texts
- ask questions to focus on particular aspects of topics for own investigations
- use text features, such as table of contents, key words, captions and hot links, to access information
- record key facts and ideas in own words; identify titles and authors of sources
- share, with familiar audiences, ideas and information on topics
- answer questions, such as “What did I do that worked well?” to reflect on research experiences

**Enhance the clarity and artistry of communication**

- revise words and sentences to improve sequence or add missing information
- print legibly and efficiently, forming letters of consistent size and shape, and spacing words appropriately
- explore and use the keyboard to compose and revise text
- use connecting words to join related ideas in a sentence
- use the conventional spelling of common words necessary for the efficient communication of ideas in writing

- present ideas and information by combining illustrations and written texts
- speak in a clear voice, with appropriate volume, at an understandable pace and with expression
- ask relevant questions to clarify understanding and to have information explained

**Respect, support and collaborate with others**

- discuss similarities and differences in settings, characters and events in oral, print and other media texts from various communities
- adjust own language use according to the context, purpose and audience
- identify ways that class members can help each other
- stay on topic during class and group discussions

**GRADE 2: [REQUIRED SUBJECT AREAS]****Mathematics**

View the mathematics subject page at <http://education.alberta.ca/teachers/program/math.aspx>

View the mathematics digital resources on the LearnAlberta.ca website at <http://learnalberta.ca>

The main goals of mathematics education are to prepare students to:

- use mathematics confidently to solve problems
- communicate and reason mathematically
- appreciate and value mathematics
- make connections between mathematics and its applications
- commit themselves to lifelong learning
- become mathematically literate adults, using mathematics to contribute to society.

Students who have met these goals will:

- gain understanding and appreciation of the contributions of mathematics as a science, philosophy and art
- exhibit a positive attitude toward mathematics
- engage and persevere in mathematical tasks and projects
- contribute to mathematical discussions
- take risks in performing mathematical tasks
- exhibit curiosity.

**The following learning outcomes are selected from the Grade 2 Mathematics Program of Studies.**

**Number**

- say the number sequence 0 to 100 by:
  - 2s, 5s and 10s, forward and backward, using starting points that are multiples of 2, 5 and 10 respectively
  - 10s, using starting points from 1 to 9
  - 2s, starting from 1
- demonstrate if a number (up to 100) is even or odd

- represent and describe numbers to 100, concretely (using physical objects such as blocks), pictorially (using pictures) and symbolically (using numbers)
- illustrate, concretely and pictorially, the meaning of place value for numerals to 100
- demonstrate an understanding of addition (limited to 1- and 2-digit numerals) with answers to 100 and the corresponding subtraction by:
  - using personal strategies for adding and subtracting with and without the support of manipulatives
  - creating and solving problems that involve addition and subtraction
  - using the commutative property of addition (the order in which numbers are added does not affect the sum)
  - using the associative property of addition (grouping a set of numbers in different ways does not affect the sum)
  - explaining that the order in which numbers are subtracted may affect the difference

### **Patterns and Relations**

- demonstrate an understanding of increasing patterns by:
  - describing
  - reproducing
  - extending
  - creatingnumerical (numbers to 100) and non-numerical patterns using manipulatives, diagrams, sounds and actions
- demonstrate and explain the meaning of equality and inequality, concretely and pictorially

### **Shape and Space**

- relate the size of a unit of measure to the number of units (limited to nonstandard units) used to measure length and mass (weight)
- demonstrate that changing the orientation of an object does not alter the measurements of its attributes

### **Statistics and Probability**

- gather and record data about self and others to answer questions
- construct and interpret concrete graphs and pictographs to solve problems

**GRADE 2: [REQUIRED SUBJECT AREAS]****Science**

View the science subject page at <http://education.alberta.ca/teachers/program/science.aspx>

View science digital resources on the LearnAlberta.ca website at <http://learnalberta.ca>

The aim of the science program is to encourage and stimulate children's learning by nurturing their sense of wonderment, by developing skill and confidence in investigating their surroundings, and by building a foundation of experience and understanding upon which later learning can be based. In elementary science, students develop their skills of inquiry and problem solving. They are also developing positive attitudes toward the study of science and the application of science in responsible ways.

**The following learning outcomes are selected from the Grade 2 Science Program of Studies.**

**Exploring Liquids**

- observe that liquid water can be changed to ice or to steam, and back again, if heated and cooled, and that wet materials dry out when left open to the air
- learn that water is our most important liquid, that we use water in many ways, and that water is essential to life
- describe some properties of water and other liquids, and recognize the importance of water to living and nonliving things

**Buoyancy and Boats**

- learn about balance and stability and about different methods that can be used in propelling a watercraft
- explore the concept of density
- construct objects that will float on and move through water, and evaluate various designs for watercraft

**Magnetism**

- learn to distinguish materials that are affected by magnets from those that are not
- learn how magnets can be used in sorting objects, moving things and holding things together
- describe the interaction of magnets with other magnets and with common materials

**Hot and Cold Temperature**

- observe that temperatures can go up and down, including the temperature of their surroundings and the temperatures of particular objects within it
- learn about methods that are used to control temperature in buildings
- learn how insulation is used to keep things hot or cold

**Small Crawling and Flying Animals**

- learn about where small animals live, what they eat, and what they are eaten by
- learn features of the animals that suit them to their particular environment
- describe the general structure and life habits of small crawling and flying animals; for example, insects, spiders, worms, slugs

## GRADE 2: [REQUIRED SUBJECT AREAS]

### Social Studies

View the social studies subject page at <http://education.alberta.ca/teachers/program/socialstudies.aspx>

The aim of the social studies program is to promote a sense of belonging and acceptance in students as they engage in active and responsible citizenship. At the heart of Alberta's social studies program are concepts of citizenship and identity in the Canadian context. It also includes multiple perspectives, including Aboriginal and Francophone, that contribute to Canada's identity. The program also has a strong focus on Canadian and Alberta history.

Grade 2 students will investigate life in three diverse communities within Canada. Based on their understanding of their own communities, students will explore characteristics of selected rural and urban communities in Canada: an Inuit community, a prairie community and an Acadian community. They will apply their understanding of various aspects that define communities, such as geography, culture, language, heritage, economics and resources, in their investigation of how communities are connected. Students will discover how people live in each of these communities and will reflect upon the vastness of Canada and the diversity of Canadian communities.

**The following learning outcomes are selected from the Grade 2 Social Studies Program of Studies.**

#### Canada's Dynamic Communities

Students will demonstrate an understanding and appreciation of how geography, culture, language, heritage, economics and resources shape and change Canada's communities.

**Values and Attitudes**

Students will appreciate the physical and human geography of the communities studied:

- appreciate how a community's physical geography shapes identity
- appreciate the diversity and vastness of Canada's land and peoples

**Knowledge and Understanding**

Students will investigate the physical geography of an Inuit, an Acadian, and a prairie community in Canada by exploring and reflecting the following questions for inquiry:

- Where are the Inuit, Acadian and prairie communities located in Canada?
- What are the major geographical regions, landforms and bodies of water in each community?
- What geographic factors determined the establishment of each community (e.g., soil, water and climate)?
- What is daily life like for children in Inuit, Acadian and prairie communities (e.g., recreation, school)?

Students will investigate the cultural and linguistic characteristics of an Inuit, an Acadian and a prairie community in Canada by exploring and reflecting upon the following questions for inquiry:

- What are the cultural characteristics of the communities (e.g., special symbols, landmarks, languages spoken, shared stories or traditions, monuments, schools, churches)?
- How are the communities strengthened by their stories, traditions and events of the past?
- What individuals and groups contributed to the development of the communities?
- How do the cultural and linguistic characteristics of the communities studied contribute to Canada's identity?

Students will investigate the economic characteristics of communities in Canada by exploring and reflecting upon the following questions for inquiry:

- What kinds of natural resources exist in the communities (e.g., fishing, agriculture, mining)?
- What kinds of goods and services are available in the communities?

## **A Community in the Past**

Students will demonstrate an understanding and appreciation of how a community emerged, and of how the various interactions and cooperation among peoples ensure the continued growth and vitality of the community.

### ***Values and Attitudes***

- appreciate how stories of the past connect individuals and communities to the present
- appreciate how Aboriginal and Francophone peoples have influenced the development of the student's community

### ***Knowledge and Understanding***

Students will analyze how the community being studied emerged, by exploring and reflecting upon the following questions for inquiry:

- What characteristics define their community?
- What are the origins of their community?
- What individuals or groups contributed to the development of their community?

Students will examine how the community being studied has changed, by exploring and reflecting upon the following questions for inquiry:

- In what ways has our community changed over time (e.g., changes in transportation, land use)?
- How has the population of their community changed over time (e.g., ethnic mix, age, occupations)?
- How is the presence of Aboriginal and/or Francophone origins reflected in the community today?

## GRADE 2: [REQUIRED SUBJECT AREAS]

## Physical Education

View the physical education subject page at <http://education.alberta.ca/teachers/program/pe.aspx>

The aim of the K–12 physical education program is to enable individuals to develop the knowledge, skills and attitudes necessary to lead an active, healthy lifestyle. Students participate in a variety of physical activities: dance, games, types of gymnastics, individual activities and activities in alternative environments, such as aquatics and outdoor pursuits. All learning outcomes are to be met through physical activity as a means of fostering a desire in students to participate in lifelong physical activity.

**General Outcome A: Activity**

*Students will* acquire skills through a variety of developmentally appropriate movement activities; dance, games, types of gymnastics, individual activities and activities in an alternative environment; e.g., aquatics and outdoor pursuits.

- Basic Skills; Locomotor; Nonlocomotor; Manipulative
- Application of Basic Skills in an Alternative Environment, Dance, Games, Types of Gymnastics, Individual Activities

General outcomes B, C and D are interrelated and interdependent and are achieved through involvement in movement activities identified in General Outcome A.

### General Outcome B: Benefits Health

*Students will understand, experience and appreciate the health benefits that result from physical activity.*

- Functional Fitness
- Body Image
- Well-being

### General Outcome C: Cooperation

*Students will interact positively with others.*

- Communication
- Fair Play
- Leadership
- Teamwork

### General Outcome D: Do it Daily ... for Life!

*Students will assume responsibility to lead an active way of life.*

- Effort
- Safety
- Goal Setting/Personal Challenge
- Active Living in the Community

### Exemptions from Physical Education

Exemptions from participation in physical education may be given for medical conditions, when accompanied by a medical certificate from a doctor to the principal; for religious beliefs, when accompanied by a statement in writing from the parent to the principal; and where access to facilities is prohibitive. When exemption is granted, activities consistent with the program outcomes should be substituted, where appropriate.

### Physical Education Online

<http://education.alberta.ca/physicaleducationonline>

The Physical Education Online website provides a wealth of information to support student learning of the K–12 physical education program of studies. The site is organized into three major sections:

- Program of Studies—The general outcomes and grade specific outcomes for K–12.
- Teacher Resources—Links to authorized resources, the Guide to Implementation, teaching tools, and activities and lessons that address the outcomes for the K–12 physical education program.
- Home Education—This portion is designed for parents and teachers to use with students who may be enrolled in an online or home education physical education course.

## GRADE 2: [REQUIRED SUBJECT AREAS]

### Health and Life Skills

View the health and life skills subject page at <http://education.alberta.ca/teachers/program/health.aspx>

The aim of the health and life skills program is to enable students to make well-informed, healthy choices and to develop behaviours that contribute to the well-being of self and others. A comprehensive health program involves a partnership among home, school and community.

#### Wellness Choices

*Students will* make responsible and informed choices to maintain health and promote safety for self and others.

- Personal health
- Safety and responsibility

#### Relationship Choices

*Students will* develop effective interpersonal skills that demonstrate responsibility, respect and caring in order to establish and maintain healthy interactions.

- Understanding and expressing feelings
- Interactions
- Group roles and processes

### Life Learning Choices

*Students will* use resources effectively to manage and explore life roles and career opportunities and challenges.

- Learning strategies
- Life roles and career development
- Volunteerism

**GRADE 2: [REQUIRED SUBJECT AREAS]****Art and Music**

View the fine arts subject page at <http://education.alberta.ca/teachers/program/finearts.aspx>

Through art and music, students develop self-awareness and express their creativity in many ways. They respond personally and critically to a variety of art and music styles and forms.

**Art**

The aim of the art program is to enable students to learn visual arts skills and concepts, to interpret and communicate with visual symbols, to appreciate the cultural aspects of art, and to relate art to everyday life. The art curriculum has four major components: reflection, depiction, composition and expression.

**The following learning outcomes are selected from the Grade 2 Art Program of Studies.**

- notice that natural objects or forms have common features
- assess the use or function of objects
- develop decorative styles
- add finishing touches to their creations
- decorate items personally created
- use media and techniques with an emphasis on exploring and applying methods in drawing, painting, print making, sculpture, fabric arts, photography and computer graphics

## Music

The aim of the music program is for students to develop an enjoyment of music, an understanding of a variety of music styles and an insight into music through a variety of musical activities. The music program is developed around the concepts of rhythm, melody, harmony, form and expression. These concepts are learned through participating in six skill areas: listening, moving, singing, playing instruments, reading and writing, and creating.

**The following learning outcomes are selected from the Grade 2 Music Program of Studies.**

- understand that rhythm patterns can accompany melody
- understand that printed symbols in music show the direction of the melody
- understand that music may be fast or slow and may change from one to the other suddenly or gradually
- detect the rise and fall of melody
- improvise movements to poems, stories and songs
- sing many folk, ethnic, seasonal and holiday songs
- play simple rhythm patterns
- recognize the music staff and treble clef sign
- create melodic and/or percussion accompaniments for poems and songs

▼ The range of optional subject areas offered by elementary schools varies from school to school depending on such factors as student and parent preferences, facilities and staffing.

## GRADE 2: [OPTIONAL SUBJECT AREAS]

• Drama

• Languages

**Drama**

View the drama subject page at  
<http://education.alberta.ca/teachers/program/finearts.aspx>

The aim of the drama program is for students to develop a positive self-concept by assuming other roles and acquiring dramatic skills. Play, dramatic play and structured dramatic play are the foundation for dramatic forms of expression. These include dramatic movement, mime, choral speech, storytelling, dramatization, puppetry, choric drama, readers' theatre, story theatre, playmaking and group drama.

Drama may be taught as a separate subject area or integrated with other subjects.

## GRADE 2: [OPTIONAL SUBJECT AREAS]

Drama Languages

## Languages

<http://education.alberta.ca/teachers/resources/learnlang/educators/toolkit.aspx>

A variety of courses in languages are available throughout Alberta. These courses include First Nations languages, French and International languages.

Alberta Education has approved numerous provincial language programs of study. As well, school authorities may develop and implement locally developed language courses to meet their needs.

### FIRST NATIONS LANGUAGES

#### Blackfoot and Cree Language and Culture

<http://education.alberta.ca/teachers/program/fnmi.aspx>

Blackfoot and Cree language and culture programs are designed to enable students to learn their respective languages and to increase awareness of their cultures.

**The following learning outcomes are selected from the Blackfoot and Cree Language and Culture Programs of Study.**

#### Blackfoot

- acquire basic communication skills in the Blackfoot language
- develop cultural sensitivity, and enhance personal development
- develop a desire to extend or improve proficiency in the Blackfoot language

#### Cree

- use Cree in a variety of community and school situations and for a variety of purposes
- be effective, competent and comfortable as Cree speakers (*Okiskinamawâkanak ka nihtâ nehiyawewak*)

- live (*wa*)*wētina(hk)* (peacefully) with Mother Earth, others and themselves, guided by *Ômâwawî Ohtâwîmâw* (the Creator)
- know and use various strategies to maximize the effectiveness of learning and communication

## FRENCH

### French Immersion Program

<http://education.alberta.ca/parents/educationsys/frenchlanguage/immersion.aspx>

In Alberta, many students have the opportunity to study in a French immersion program. This program, designed for non-French speaking students, offers an effective way for students to become functionally fluent in French while achieving all of the learning outcomes of the regular programs of study. Graduates from French immersion programs achieve a level of fluency in the target language that allows them to pursue their post-secondary studies in French or to accept employment in a workplace where French is the main language of communication.

There are many delivery models for French immersion present in Alberta schools.

- Early immersion—students begin their immersion experience in Kindergarten and continue in the program to Grade 12.
- Late immersion—the entry point is typically Grade 7.

Courses offered in the French language have as their basis a French version of the English language programs of study, which is identical or comparable to the one used in the English language programs. However, a program of studies specific to French immersion students was developed for the learning/teaching of French language arts. Some of the main French language arts learning outcomes are presented in the following section, French Language Arts.

A resource that may be helpful to parents is *Yes, You Can Help! Information and Inspiration for French Immersion Parents*. It is available for purchase from the LRC.

### French Language Arts

<http://education.alberta.ca/francais/teachers/progres/core/fla.aspx>

In Division 1, the French language arts program of studies is primarily intended to develop oral vocabulary and basic sentence structure that will enable students to engage actively in classroom activities. By first learning orally the basics of the French language, especially vocabulary, students are able to learn how to read since the words they encounter in their reading will now have meaning. They will also have acquired words and basic sentence structures to express themselves in writing.

**Note:** The development of basic language skills does not take place in isolated exercises, but rather in context, so that students learn not only the rules but also when and how to apply them.

In Grade 2, learning occurs primarily:

In **oral comprehension** through:

- listening to short, illustrated texts in various literary genres and subject areas
- listening to recorded texts supported by illustrations.

Students will learn to use basic listening strategies and develop a cooperative attitude toward the speaker so that they benefit from each listening situation.

In **reading comprehension**:

Teachers will select, for their students, short texts and stories of approximately 100 to 150 words:

- whose content is related to their past experiences and prior knowledge
- that provide concrete, familiar information.

In **oral production**:

Themes for presentations and discussions may be chosen from various subject areas. Students should have had the opportunity to explore topic-related vocabulary in various contexts. Proposed situations should allow students to demonstrate what they already know or what they have learned about a given topic, or to represent their imaginary world.

Student presentations and discussions should be short and well structured, with emphasis on:

- the meaning of the message
- the correct use of vocabulary related to the topic or to the representation of their imaginary world
- the importance of intonation for better understanding.

**In writing:**

In **Grade 2**, learning to write is a continuation of work begun in Grade 1.

- Students develop the ability to write sentences and short texts based on models to become familiar with the written language.
- Students learn to write sentences for the purpose of providing information and short texts to represent their imaginary world.

The main purpose of these learning activities is to enable students to integrate the basic elements of the written language:

- the choice of words to express their ideas
- word order in a sentence
- punctuation
- spelling.

**INTERNATIONAL LANGUAGES****Bilingual Programs**

<http://education.alberta.ca/teachers/program/interlang.aspx>

Students in a bilingual program follow a language arts course in the target language (e.g., Spanish, Ukrainian) in addition to studying English language arts. In these programs, the target language is also used as the language of instruction in other subject areas, such as mathematics, science and social studies.

Students acquire knowledge, skills and attitudes in the areas of listening, speaking, reading, writing, viewing and representing. They learn to use the target language confidently and competently in a variety of situations for communication, personal satisfaction and further learning. They are able to explore, understand and appreciate the cultures of the target language for personal growth and satisfaction, and to participate in and contribute to an interdependent and multicultural global society.

Alberta Education offers the following provincial courses for bilingual program students:

- Chinese (Mandarin) Language Arts
- German Language Arts
- Spanish Language Arts
- Ukrainian Language Arts

## Language and Culture Programs

Students registered in a language and culture course study the target language (e.g., Ukrainian, German) as a subject area. The language and culture program is designed to develop language and cultural skills.

Students will:

- use the international language in a variety of situations for a variety of purposes
- use the international language effectively and competently
- acquire the knowledge, skills and attitudes to become effective global citizens
- know and use strategies to maximize the effectiveness of learning and communication.

Italian Language and Culture (Twelve-year Program) is a continuous, articulated provincial language and culture course sequence that begins at Grade 1 and extends through to Grade 12.

## LOCALLY DEVELOPED LANGUAGE COURSES

If there are no available provincial programs of study, school authorities may develop their own language course series. Currently, a variety of languages, e.g., Arabic, American Sign Language (ASL), Hebrew, Polish and Russian, are offered as local courses. Locally developed First Nations language and culture courses may also be available to meet the needs of students in local or First Nations schools.

For more information on second language instruction offered in your area, please contact your local school board.

## Curriculum Handbook for Parents 2011–2012: Grade 2

### Questionnaire

Please help us to improve this document by taking a few minutes to answer these short questions.

**Circle the phrase that best completes the sentence.**

1. I found the information provided about the specific subject areas was (too specific/just right/too general).
2. I found the web links within the document were (useful/not required/problematic).
3. I found that the contact information provided was (useful/not necessary).
4. I found that the *Commonly Accessed Web Links* page was (useful/not necessary).

**Do you agree or disagree with the following statements?**

1. I believe that the information provided in this document will help me to discuss my child's education with teachers and school administration. (agree/disagree)
2. I was able to locate the information I needed easily. (agree/disagree)
3. This document helped me to locate other online documents and information. (agree/disagree)

**Please tell us more . . .**

I felt that there was enough information in this document about \_\_\_\_\_  
but, I thought that there could have been more information in this document about \_\_\_\_\_  
\_\_\_\_\_.

I felt that this document was missing information about \_\_\_\_\_.

**Thank you for sharing.**
